CHANGE IS GOOD (Really!)

*Deploying Successful, Leadership
Corporate Culture & Teamwork*
Presented by **Matthew Cordner,**
Executive Director Bell XworX

Bell Helicopter is an industry leading producer of commercial and military, manned and unmanned vertical lift aircraft and the pioneer of the revolutionary tilt rotor aircraft. Globally recognized for world-class customer service, innovation and superior quality, Bell's global workforce serves customers flying Bell aircraft in more than 120 countries. In Texas, Bell has facilities in Fort Worth, Arlington and Amarillo. They are in an innovation and growth mode and plan to make significant increases to its workforce.

At Bell XworX, they make the complex simple. Bell XworX combines project resources from across the company to serve as a single resource for rapid development and prototyping of new vertical solutions such as Eagle Eye Unmanned Aircraft System which received FAA Experimental Certification earlier this year. Often Bell XworX tackles a specific piece of a project to enable the rest of Bell to focus on other areas such as freeing up manufacturing staff to meet project aircraft delivery requirements.

To meet its mission of addressing the vertical-left industry including manufacturing processes, cost containment, and new technology integrations Bell XworX has to stay lean and efficient. They focus on multi-talented people, who can design a solution, get it built and then get it on the aircraft and test it.

Matt Cordner, Executive Director of XworX will present an overview of Bell and its products as well as his thoughts on leadership, teamwork and implementing good corporate culture practices. (Save June 13 for Bell tour)

"Make the complex simple. Build trust and get results."

Yes, sign me up for the May 9th MANT presentation from Bell Helicopter on Leadership, Teamwork & Culture. LOCATION: ARRI/UT-ARLINGTON FW CENTER @ 7300 JACK NEWELL BLVD So., FW, 76118
